

Immediate Release:  
27 November 2017

**BYRON BIKE RACK PROJECT ENTRIES NOW OPEN!  
STONE & WOOD PARTNERS WITH LOCAL COUNCIL ON COMMUNITY INITIATIVE**

Calling all local creatives, artists, designers, architects, builders and bike riders, Stone & Wood have partnered with the Byron Shire Council to launch a Bike Rack Design Competition.

The winning entrant will be funded \$20,000 to bring their ideas to life. The community initiative encourages the locals and visitors of Byron Bay to ride, rather than drive, and aims to create a set of functional, public art installations. Entries are open for a two-month period, from Tuesday 22 November 2017 and until Monday 22 January 2018.

Entrants are required to submit three to seven designs for installation, these can be site specific or the same, at selected sites throughout the Byron CBD. Designers will progress through two stages, before a winning entrant is chosen. The first stage is an online submission providing concept designs and general information about the artwork, and the second stage is for shortlisted applicants who will be required to present a more detailed proposal to both Byron Shire Council, and a set of selected judges.

The local independent brewery and council, are stoked to be supporting an environmentally progressive and creative initiative for the community.

More information and entry forms for the Byron Bike Rack Project are available on the project's website [stoneandwood.com.au/byron-bike-rack-project](http://stoneandwood.com.au/byron-bike-rack-project)
